

To whom this may concern:

Hello my name is Sonya Masse and I am writing to give you reasons why I oppose the National Do Not Call list. There are many reasons why I feel this would affect not only myself but over 200 Non Profit Organizations that we represent each year. These organizations rely on RuffaloCODY's work each year to be successful. Not only do we raise funds for colleges and universities but we do membership calls for cultural organizations as well as college recruitment and fundraising for diocese organizations as well. With this rule it is really going to have a HUGE effect on those funds that so many companies do truly rely on. Now is especially an important time where they would rely on our work, as the government is cutting so much from state budgets. I do not think it is fair to impose a rule on something that is only helping people. The work that we do is not what people get sick of hearing, it is those calls where sales is involved. We do NOT sell anything over the phone, we are SIMPLY making calls on behalf on great organizations that assist so many each year. I hope you consider this letter in your decision.

Sincerely,

Sonya Masse
